SUMMARY

Backend Developer at Accenture since February 2024, specializing in Java, Spring Boot, SQL Server, Azure DevOps, and RESTful API development. Experienced in designing scalable microservices, optimizing database performance, and implementing CI/CD pipelines. Adept at working in Agile environments and collaborating across teams to deliver high-quality backend solutions. Passionate about building maintainable systems and solving real-world software challenges.

EDUCATION

St. Columba's College

August 2020 - September 2023

Bachelor of Computer Application - (7.6/10)

Hazaribag, Jharkhand

Coursework: C/C++, Java, .NET, SDLC, DBMS, Data Structures, Operating System, Computer Network, Data Analytics

EXPERIENCE

Accenture Solutions PVT LTD

March 2025 - Present

Software Engineer Analyst

New Town, Kolkata

- Designed and implemented microservices using Java, Spring Boot, and RESTful APIs, enhancing application scalability and reducing response times by 15%.
- Collaborated in Agile sprints with cross-functional teams to ensure timely feature delivery and defect resolution.
- Mentored team members on Spring Boot best practices, clean architecture, and design patterns, boosting team efficiency and code maintainability.
- Tuned JPA queries and optimized database design on SQL Server, improving application performance and reducing query time by 35%.

Accenture Solutions PVT LTD

February 2024 - Present

Associate Software Developer

New Town, Kolkata

- Developed and maintained backend services using Java 17, Spring Boot, and Spring Data JPA, delivering robust APIs for client-facing applications.
- Implemented SQL Server data models with optimized indexing strategies, reducing report generation time by 30%.
- Automated CI/CD pipelines using Azure DevOps to streamline deployment of Spring Boot services, cutting manual deployment effort by 50%.
- Built reusable utility services and custom exception handling layers, improving code modularity and debugging efficiency.
- Integrated Azure services like Logic Apps and Azure Functions for event-driven processes and scheduled tasks.
- Collaborated with QA and frontend teams to ensure seamless API integration and successful UAT sign-offs.

CubeClick Inc.

June 2023 - July 2023

Intern

Hazaribag, Jharkhand

- Built a secure File Sharing System using the .NET framework, reducing data transfer times by 30%.
- Applied a comprehensive access control system within the API architecture, securing sensitive files for over 50 users.
- Created and optimized a SQL Server database to store metadata and manage user permissions, enhancing data retrieval speeds.
- Designed a user-friendly web interface using HTML5, CSS, and JavaScript, ensuring a seamless user experience across devices.

SKILLS

Programming/Scripting Languages:	Java, SQL, C#, .NET
Frameworks/Technologies:	Spring Boot, Spring Data JPA, REST APIs
Databases:	SQL Server, Oracle RDBMS
Developer Tools:	VS Code, IntelliJ, Visual Studio, GitHub, Azure DevOps, SSMS
Cloud Services:	Microsoft Azure, Azure Functions, Azure Logic Apps, Azure DataFlow
Methodologies:	Agile, Scrum, Microservices Architecture
Soft Skills:	Teamwork, Adaptability, Attention to detail

EXTRACURRICULAR

- **Microsoft Certified: Azure Fundamentals (AZ-900)** – Microsoft, 2025
- **Microsoft Certified: Azure AI Fundamentals (AI-900)** – Microsoft, 2025
- **GitHub Copilot Foundations** – GitHub Skills, 2025
- **Solutions Architecture Virtual Experience Program:** Designed scalable IT solutions with a focus on cloud services and security.
- Led a 5-member college project team, delivering all tasks on time.
- **Goldman Sachs Virtual Engineering Program:** Completed practical task modules, including cracking a leaked password database.
